ORGANIZING CHAIRMAN
Dr. Prakash Narayan Shukla
Director, PGIBAMS

About the Workshop

Awareness about mental health problems is increasing in Indian scenario. Yet, people often hesitate to disclose about the sexual dysfunctions they are suffering with. In many cases, it becomes a challenging task for clinicians to make patients express about their sexual problems. Resultant, the lack of proper information leads to inadequate case formulations and dissatisfying management outcomes.

This hand-on training workshop, by a renowned expert in this particular area of problem, will equip the clinicians (Clinical / Rehabilitation Psychologist) with skills of

- How to interview to the individuals with sexual dysfunctions
- Various assessment strategies to get holistic understanding of patients
- Delineate the points of importance in comprehensive case formulations
- Various psycho-social management strategies / techniques to deal with sexual dysfunctions in male and female populations
